ROUMAISA RUSTAM ABBASI

Frontend Developer

Islamabad, Pakistan | +92 321 5030700 | roumaisaabbasi@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Frontend Developer with 3 months of internship experience developing responsive and user-friendly web applications using React.js, JavaScript, HTML5, CSS3, and Tailwind CSS. Skilled in building reusable UI components with React.js, integrating APIs with Axios, and managing application state effectively. Experienced in converting UI/UX designs into responsive, cross-browser compatible interfaces and collaborating with backend developers to deliver seamless user experiences. Passionate about writing clean, maintainable code, optimizing application performance, and continuously learning modern frontend technologies to build scalable and high-quality web applications.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+)

Frontend Development: React.js, HTML5, CSS3, Tailwind CSS, Material UI

API Integration: Axios

Development Tools: Git, GitHub, Postman

Other: Responsive Web Design, Cross-Browser Compatibility, Clean Code Practices

Languages: English, Urdu

PROFESSIONAL EXPERIENCE

FrontEnd Developer (Intern) | MRA Developers May 2026 – Jul 2026

G-10/1, Islamabad

Technologies: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Material UI, Axios, Responsive Web Design, Git, GitHub, Postman

- Assisted in the development of full-stack web applications using React.js, Node.js, Express.js, MongoDB, and MySQL, contributing to both frontend and backend development tasks.
- Developed responsive and user-friendly interfaces with React.js and integrated them with backend APIs.
- Implemented JWT-based authentication and supported database design and optimization.
- Collaborated with senior developers to debug issues, integrate frontend and backend modules, and enhance overall application performance.
- Gained hands-on experience building scalable web applications while following clean coding practices and agile development workflows.

Social Media Handler (Intern) | Albatross Creatives July 2025 – Sep 2025

Bluearea, Islamabad

Technologies: Meta Business Suite, Canva, Facebook, Instagram, LinkedIn, WordPress, Google Analytics, Content Planning

- Managed and maintained clients' social media presence across Facebook, Instagram, and LinkedIn, strengthening brand visibility and audience engagement.
- Created, scheduled, and published engaging content aligned with clients' marketing objectives, while monitoring and responding to comments and messages.
- Analyzed social media performance using analytics tools to optimize content strategies and improve campaign effectiveness.
- Collaborated with designers and marketing teams on creative campaigns, and updated client website content through WordPress.
- Contributed to increasing brand awareness and audience reach through strategic content planning and digital marketing initiatives.

KEY PROJECTS

CARES (Comprehensive Anxiety Relief Expert System)

Developed an AI-powered Android-based mental health application supporting mood tracking, AI-driven emotion prediction, mental health assessments, memory games, personalized notifications, and trend analysis. Leveraged ONNX Runtime for on-device AI inference, Firebase Firestore for real-time data storage and synchronization, Firebase Cloud Messaging (FCM) for push notifications, and MPAndroidChart to visualize mood trends through interactive charts, delivering an engaging, data-driven mental wellness experience.

HR Management System (HRMS)

Tech: React.js, JavaScript, JWT, Axios, Tailwind CSS, Git, GitHub, Postman

Developed a responsive HR Management System using React.js, featuring dedicated dashboards for Admin, HR, and Employees. Implemented JWT-based authentication and role-based access control, employee profile management with full CRUD functionality, attendance management with check-in/check-out and history, leave management with request/approval workflows, and payroll management with automated salary calculations. Integrated backend APIs using Axios, managed relational data using MySQL and Sequelize ORM, and built reusable React components for efficient state management.

Affi Design — Book Cover Design Portfolio & Order Platform

Developed a client portfolio website for a book cover design studio, allowing the client to showcase their services and customers to place custom cover orders online. Each order is delivered instantly by email and managed through a dedicated admin panel that lists all incoming orders. Features an interactive portfolio with 3D book animations that present cover designs in an engaging, realistic way.

EDUCATION

BS Software Engineering Oct 2021 – May 2025

International Islamic University Islamabad, Islamabad, Pakistan
